Press release

Friends of the Tay Watershed award 2012 Water Guardian Scholarship.

The Friends of the Tay Watershed are pleased to announce the winner of the 2012 Water Guardian Scholarship.

Laura Symon of Glen Tay graduated from PDCI and is now pursuing her studies in Marine Biology at Dalhousie University.

The award is based on academic merit and a demonstrated passion for, and understanding of, water.

“Growing up in a house made of beams that were floated down the Tay, having a view of the river from my window, camping, canoeing and swimming in the summer, are all things that have made my appreciation for water grow. Water not only allows us to survive, but gives us each unique lives around the world.” Laura wrote in her award-winning essay.

This is the second year of the Water Guardian Scholarship. This year, the Scholarship is made possible through the generous contributions and work of our dedicated volunteers.

On presenting Laura with a \$500 cheque, Friends of the Tay scholarship coordinator, Christopher Stone said, “Once again, our hope for the future of water gets brighter with young people like Laura.”
